## THE SFN– EW SERIES of DUST COVERS for the EMCO WHEATON OVERWING AVIATION FUELING NOZZLE SPOUTS

SFN-EW-1.0 (fits 1” Round Spout)

SFN-EW-1.5J (fits Jet Spout)

SFN-EW-1625 (fits 1 ¼” Round Spout)

SFN-EW-1875 (fits 1 ½” Round Spout)

These Fjord Aviation Products Dust Covers are designed for the Nozzle Spouts of the overwing Emco Wheaton Aviation Fueling Nozzles to keep air, water and dirt from entering the fuel system when not in use.

The dust covers are made of high impact absorbing urethane polymer that meets and exceeds FAA, Military and Commercial standards for protection and standard sealing qualities. This urethane polymer is chemical, UV and fuel resistant, flame retardant and with operating temperatures from –2 to 200 F. A urethane lanyard is attached as a standard part of each dust cover.

Thus these are your “go to” Dust Covers for Emco Wheaton Overwing Aviation Fueling Nozzle Spouts—the answer in keeping air, water, dirt or other contaminant intrusion from entering your fuel system, thus another aid in maintaining *clean dry fuel*.
